

# COURSE INFORMATION

## NEBOSH INTERNATIONAL TECHNICAL CERTIFICATE IN OIL & GAS OPERATIONAL SAFETY

### DURATION

5 Days

### OBJECTIVE

The course is designed for those working in the Oil & Gas industry and who have safety responsibilities. The course focuses on international standards and management systems. This allows students to discharge workplace safety responsibilities effectively both onshore and offshore.

### WHO SHOULD ATTEND?

Individuals such as supervisors, managers, health & safety representatives with safety responsibilities and all those working in the Oil & Gas industry in either onshore or offshore roles.

It is highly recommended that students have underpinning knowledge of health & safety issues or have previously completed a NEBOSH National General or International General Certificate or equivalent.

### COURSE CONTENT

The course consists of one unit but covers the following five elements:

- Health, Safety and Environmental Management in Control
- Hydrocarbon Process Safety 1
- Hydrocarbon Process Safety 2
- Fire Protection and Emergency Response
- Logistics and Transport Operations

### HOW IS THE COURSE ASSESSED?

The course is assessed by a two hour written examination.
